

This film replaces microfilm no. 07 102 0009 02
 The previous microfilm is now invalid and should be destroyed.

The internal updating service up to December 1996 has been incorporated.

The operation descriptions and operation numbers have been adapted to the "operation texts and work units" and "standard texts and flat rates," respectively.

Always refer to the microfiche "operation texts and work units" or "standard texts and flat rates," respectively, for the operation numbers for the repair order.

A list of additions is given below in brief.
 The operation number affected are stated.

	Coordinates
New operation descriptions:	
Technical modifications	A 1
Programmed repairs	E 18
 Revised operation descriptions:	
07.1-0001 Installation survey	G 1
07.1-0005 Vacuum diagrams	K 1
07.1-1826 Testing and adjusting vacuum control valve for automatic transmission	L 3
07.1-5701 Testing fuel pump (delivery)	O 6
07.1-5702 Testing fuel pressure (after testing delivery)	B 7
07.1-6830 Removing and installing injection nozzles	N 7
07.1-8014 Removing and installing injection timing device	B 8
07.1-8050 Servicing injection timing device	G 8
07.1-8410 Removing and installing injection pump	D 9
07.1-8627 Replacing delivery valve seal	D 10
07.1-9290 Removing and installing, replacing injection pressure pipes	H 10
09-8031 Removing and installing air cleaner cross pipe (engine 605.911)	A 11
14-1310 Removing and installing intake manifold, replacing gasket (engine 605.911)	E 11
14-1961 Removing and installing resonance intake manifold, replacing gasket 606.910) ..	K 11
14-1984 Removing and installing resonance intake line (engine 606.910)	O 11
14-3915 Removing and installing exhaust manifold	E 12
14-7265 Removing and installing pressure control flap housing	L 12
14-7550 Testing variable intake system (engine 606.910)	O 12
14-7611 Testing exhaust gas recirculation	E 12
30-1010 Setting accelerator control	K 15
30-4105 Removing and installing tension-compression damper	E 16
